

**FOR FAST RESPONSE, SERIOUS CONTROL MATTERS.
AT L-3 MARINE SYSTEMS, WE'RE SERIOUS ABOUT CONTROLS.**

For the Fast Response Cutter, control begins with ship awareness.

The technology that made L-3 Marine Systems' products successful for the U.S. Navy is now available to the Coast Guard. Our control systems include advanced features that ensure your operators have full awareness and control of your ship's system. The L-3 Control System is easy to install and flexible in design, reducing your total ownership cost. L-3 understands the needs of the Coast Guard, and our products are tested and proven. From bridge to propeller, L-3 Marine Systems delivers the highest level of technology and integration for the Coast Guard FRC. For more information, visit L-3com.com/MarineSystems.
